

SILVAGRIP® - Peel and Stick - Non-Skid Solution

Deck of Navy Destroyer

Stairway

What is Silvagrip®?

- Silvagrip® is a long life, peel and stick, non-slip and non-skid sheeting. Designed to reduce workplace accidents. Approved and used by the U.S. Navy.

Benefits

- The strongest, hardest and longest-lasting wear surface available.
- Long life-cycle of typically 6-12 years.
- Wear Resistant and Durable – conventional products use resins to hold the abrasive. The abrasive particles fall out and the surface loses its grip. Silvagrip® uses a unique proprietary and patent pending process of ceramic abrasives being locked into a holding metal matrix.
- Increase safety - Reduce slips and injuries. Silvagrip® has the highest possible coefficient of friction anywhere.
- Corrosion Proof, UV proof, Waterproof, Oil, Salt and Chemical Resistant.
- Withstands temperature of 200 Celsius.
- Can be cleaned with mild detergent using reduced pressure washing of 12" standoff

Save Money - Easy to Install

- Silvagrip® is available in a standard thickness in 4' x 3' sheets for cutting to size or it can be ordered in a custom cut sizes and shapes to suit the project.
- Silvagrip® is applied to a surface which is clean, dry and free of any residues.
- The Surface is ready to use immediately.

SILVAGRIP® - Peel and Stick - Non-Skid Solution

Navy Ship Walkway

Transportable Port Security Boat

Applications :

Silvagrip® is engineered as an anti slip tape for walking surfaces and light equipment areas of use.

- Commercial Marine – ship decks, Helidecks, docks, gangways, high traffic paths, steps
- Heavy Industry - offshore drilling rigs, manufacturing work stations, hazard areas
- Industrial - loading docks, hand grips, ladders, railings
- Public Areas - hospitals, schools, care homes, entrances, subways, sidewalks, stadiums
- Commercial - grocery produce areas, butcher work stations, entrances
- Kitchens, entrances, walkways, trucks, forklifts, golf carts
- Accessibility - wheelchair ramps, handgrips
- Public Buildings - pools, fitness facilities
- Transportation - bus stops, bus steps, Airports

Examples of Existing Projects

Silvagrip® is approved to Military spec.: MIL-PRF 24667C type-XI and has been applied to the following :

- USS Mahan destroyer ship
- QMS Paraiso OSV walkways Abu Dhabi
- Houston pilot boats, Kitsap Ferry - Seattle
- USS Oak Hill dock landing ship, Sandy Hook pilot boat
- Steveston Harbour Authority – Utility Work Boat - Richmond, BC
- Aegis Ashore Missile Défense Complex
